Revolutionerende NYHED

Ny type lys med reduceret partikelemission

REN HYGGE Et nyt lys med added value

- REN HYGGE lysene er klima korrekte, da de er fremstillet af fornybare råvarer og indgår, som en del af naturens kredsløb med respekt for naturen
- REN HYGGE er HYGGE, som er en del af den danske DNA med god samvittighed. Når vi hygger skaber vi en god stemning og vi føler os godt tilpas og til den fuldendte hygge i hjemmet hører stearinlys, når de mørke dage og aftener er over os
- REN HYGGE produkterne udleder færre partikler og hovedparten af de partikler, der udledes er vandopløselige saltpartikler
- REN HYGGE produkterne er produceret på vores fabrik i Portugal
- REN HYGGE er udviklet i samarbejde med Teknologisk Institut og Miljøstyrelsen
- REN HYGGE er 100% stearin lys
- De brænder med en klar og rolig flamme
- REN HYGGE lysene udleder markant færre partikler end de eksisterende produkter på markedet – op til 90% færre partikler viser DTI's målinger
- REN HYGGE er således REN HYGGE med god samvittighed overfor dit indeklima, da det afgiver færre partikler, og er tilmed godt for naturen og klimaet ligesom det er bæredygtigt
- Hvad kan man mere ønske sig, når der skal REN HYGGE i hjemmet?

Miljøvenlige Bloklys/ Eco-friendly Candle

100% stearin

White

5,8 x 13 cm

30 stk./krt. - pcs./crt.

Art. no. 71742

Dette lys er et resultat af MUDP projekt: **Miljøvenlige lys** med reduceret partikelmission

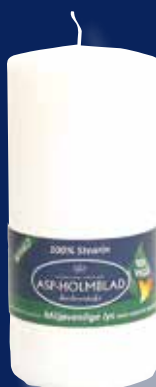

Forskning og Videnskab

Vejen til ny viden

- ASP-HOLMBLAD har på baggrund af mange dårlige historier om lys valgt at investere i et samarbejde med videnskaben, så vi kan få dokumentation for hvad der er fup og hvad der er fakta
- Vi indledte i 2016 et samarbejde med DTI og Miljøstyrelsen og gennem et MUDP projekt blev publikationen "Miljørigtige lys med reducerede partikelemissioner" til og resultaterne har ført til et nyt produkt
- Alle blev klogere undervejs og mange af historierne fra dagspressen har vi kunnet vende tilbage til og udbede os kildemateriale, som de ikke har kunnet fremskaffe fordi meget bygger på tomme postulater fremfor fakta
- Vi måtte også konkludere at vi ikke kunne kortlægge alt i dette projekt, hvorfor vi søgte Innovationsfonden om midler sammen med DTI og en række andre partnere til projekt CANDLE, som vi nu er i gang med og som slutter ultimo 2021, så vi forventer i 2021/2022 at komme med endnu et nyt produkt, som er baseret på seneste viden, hvor der indgår human test

Miljøvenlige Bloklys
Eco-friendly Candle
100% stearin
White
6,8 x 15 cm
10 stk./krt. - pcs./crt.
Art. no. 71758

KVALITETS
LED-LYS
FRA
ASP-HOLMBLAD A/S

NY GENERATION LED LYS

- Markedet for LED lys har gennem de seneste 5 år været jævnt stigende
 - Da de første LED lys kom på markedet så de meget kunstige ud
 - LED lys estimeres til i dag at udgøre en markedsværdi på ca. 100 Mio Kr i Danmark
 - LED lys har haft en stabil omsætning de seneste 2-3 år og nu er der en ny generation på vej, som vi forventer kan skabe ny vækst i markedet
 - LED lys og levende lys har efterhånden fået deres indtog i mange hjem
 - Tidligere var det typisk sådan, at enten brugte man levende lys eller LED lys, men nu er tendensen at man benytter både og i mange danske hjem
 - Vi har talt med forbrugerne og spurgt indtil deres vaner om lys
 - **Levende lys benyttes typisk i de rum, hvor man befinder, når man skal hygge sig eller når man har gæster, mens LED lys ofte er en lyskilde der anbringes i rum, hvor man ikke er hele tiden, men blot passerer forbi så der er lys, når man kommer i rummet**
 - **Flere ældre mennesker siger, at de ikke tør tænde levende lys og derfor er LED lys et godt alternativ**
 - **Institutioner har gjort levende lys forbudt, så der er alternativet LED lys eller ingenting**
- Endvidere kan LED lys leveres med timer, som gør at de slukker af sig selv og man kan tilmed købe en remote control og tænde og slukke flere på lys én gang. Dette synes mange er praktisk, hvis de har dem stående i lanterner og beholdere, så man ikke skal rundt og tænde og slukke – så her er det bekvæmme-
- ligt.
- **Ny patenteret væge**
 - **Det lyser, som en autentisk brændende flamme**
 - **Det er lavet i en paraffin skal og det ligner ikke et plastic/kunstigt lys**
 - **Er patenteret**
 - **Ser naturtro og autentisk ud ved siden af et ægte levende lys**
 - **Denne væge indeholder 13 dioder og derfor står den ikke og blinker som andre lignende produkter, men lyser op med en naturtro flamme**
 - **Kernen er beklædt med paraffin og ligner overfladen på et rigtigt lys. Ved at overfladen er beklædt med paraffin gulner overfladen ikke så hurtigt og bliver grim, som en tilsvarende kerne af plastic. Kernen ligner et rigtigt lys og ikke et plastic lys!**
 - **Indeni kernen ligger al elektronik og der benyttes AA og AAA batterier til produkterne**
 - **Produkterne leveres uden batteri**

NY GENERATION LED LYS

Bloklys LED
LED-Pillar Candle

5 x 7,5 cm

*Batterier medfølger ikke
(2 stk./pcs. AA batterier)
6 stk./krt. - pcs./crt.

indvendige kanaler
Inner Duct

KANAL KRONELYS - LYS MED EKSTRA SIKKERHED

1. Flydende stearin løber ned i kanalerne, så lyset ikke løber.
2. Brænder med stor og smuk flamme.
3. Brænder med „tør skål“.
4. Skarp og „løbesikker“ kant.
5. 100% stearin giver sodfri flamme.
6. Specialimprægneret væge.

CANAL CROWNTOP CANDLES - CANDLE WITH EXTRA PRECAUTION

1. Liquid stearin runs down into the canals.
2. Burns with a big and beautiful flame.
3. Burns with „dry bowl“.
4. Sharp „run-safe“ edge.
5. 100% stearin makes a soot-free flame.
6. Special wick proof.
